**DETAILED ACTION**

1. Claims 2-9,22,23 have been canceled. Claims 1,10-21,24-44 are pending.
2. The examiner has considered the IDS submitted.

***Election***

3. Applicant's election with traverse of group I in the reply filed on February 27, 2006 is acknowledged. The traversal is on the ground(s) that the claims may be properly rejoined and group IV claims are improperly restricted. This is not found persuasive because Group IV contains an ingredient not necessary for group I rendering group IV of different scope and properly restrictable. Further, the remaining groups contain subject matter that have outstanding 35 USC 112, 1<sup>st</sup> paragraph issues and are not allowable in their present form.

The requirement is still deemed proper and is therefore made FINAL.

4. Claims 27-44 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention. Applicant timely traversed the restriction (election) requirement in the reply filed on February 27, 2006.
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

***Ex parte Quayle***

6. This application is in condition for allowance except for the following formal matters:
  - (A) claim 13 depends from canceled claim 9;
  - (B) claims 27-44 to nonelected invention not properly rejoinable;

Art Unit: 1625

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

***Certain Observations***

7. The references on the IDS have been considered. The references neither alone nor in combination forms teach or suggest the claimed compounds.
8. Cannabinoid receptor agonists are known to treat obesity. The cannabinoid binding assay beginning at page 71 of the
9. specification is noted.
